

Project ID	1
Focus / Field	Community development
Country / Region Implemented	Brazil
Name of Project / Activity	Comunidade Vivas
Project / Activity URL (if any)	https://www.institutobrotar.org.br/projects-2
Target Location	Ceara State, Brazil
Purpose of Project / Activity	This project aims to improve the quality of life and autonomy of rural families, through the implementation of social technologies (biogas and biowater), promoting income generation, food security, environmental preservation and the dignity of families. The digester uses animal manure from the rural property to produce biogas instead of conventional gas. Its advantage is to use the methane gas produced by animal manure to produce biogas that will be used in the kitchen of the house, saving on the purchase of butane gas.
Target of Project / Activity	Family's living in rural areas
Project / Activity Contents	- Biotechnologies that improve waste reuse and minimize environmental impact, while closing the supply chain by using residues to grow vegetables and produce energy - Build accessible technology to produce biogas. Technology to reuse water from home to irrigate vegetables and crops
Name of Implementing Organization	Instituto Brotar
Organization URL	https://www.institutobrotar.org.br
Location of Head Office (City, Country)	Tabuleiro do Norte, CE. Brazil
Category (Public / Private / NPO)	NPO/NGO
Annual Budget	N/A
Source of Funds	Donation/Grants
Base of Activity	Ceara State, Brazil
Number of Staff (paid)	10
Number of Volunteers	3
