

Project ID	20
Focus / Field	Environment
Country / Region Implemented	Macau
Name of Project / Activity	Recycling the Red Packets is Very Easy
Project / Activity URL (if any)	https://www.dspa.gov.mo/richtext5.aspx?a_id=1640918784
Target Location	Macau SAR
Purpose of Project / Activity	Reuse or recycle red packets to reduce paper waste
Target of Project / Activity	In order to continue to implement the environmental protection policy of resource recovery and recycling, the government has organized a very EASY activity for recycling red packets to publicize the environmental protection message of "use less, use more, and don't waste" to the public.
Project / Activity Contents	The Environmental Protection Bureau has set up a recycling point for the sealed bags, which is convenient for citizens to recycle and reuse the intact used bags, so as to practice environmental protection. It is recommended that everyone keep the unused new bags for future use. The government will follow the principles of environmental protection and, through cooperation with associations and organizations, distribute reusable lipo packs to the public for recycling before next year's Lunar New Year; some of the lipo packs will also be used as environmental protection materials during environmental protection activities or workshops Use, as for the non-reuse of the seal, it will be recycled. In the future, the Environmental Protection Bureau will continue to promote environmental protection activities such as waste reduction and recycling through community networks.
