

Project ID	28
Focus / Field	Environment
Country / Region Implemented	Philippines
Name of Project / Activity	Magpakabana Kita
Project / Activity URL (if any)	https://www.facebook.com/ustposacdo/posts/460652098090978
Target Location	USTP and Cagayan de Oro City
Purpose of Project / Activity	Magpakabana Kita, an advocacy aimed to reduce plastic waste, is a swift and systematic reply towards the call of urgent solutions and mitigations for the environmental protection especially to the surrounding environment of this University. Magpakabana Kita is composed of series of waves, systematically divided in order to strategically gain productive results.
Target of Project / Activity	USTP Students and Cagayan de Oro Residence
Project / Activity Contents	Wave 1 of Magpakabana Kita was the surprise information dissemination and campaign drive towards the University students at the University cafeteria. Wave 2 is the environmental awareness talk participated by the student organizations in this University. Wave 3, which is a continuous effort until now, is the promotion of bringing own water canteens and bento boxes (balunan) to decrease single use plastics usually accredited to the plastics used to store food and water bottles. The last wave of this advocacy is the pushing of an advocacy policy.
