

Project ID	30
Focus / Field	Environment
Country / Region Implemented	Philippines
Name of Project / Activity	The Sustainable Diner Project
Project / Activity URL (if any)	https://wwf.org.ph/what-we-do/food/thesustainablediner/savour-planet-2019-new-theme/
Target Location	Cebu City, Quezon City, and Tagaytay City, Philippines
Purpose of Project / Activity	To lessen food wastage and contribute to the improvement of the implementation of sustainable consumption and production processes in the foodservice sector
Target of Project / Activity	The government, food service businesses, and consumers in promoting sustainable dining practices and in making the Philippines' food service industry more environmentally friendly
Project / Activity Contents	The Philippines is implementing a project named "Establish Low Carbon Consumption and Production in the Philippines" also known as "The Sustainable Diner: A Key Ingredient for Sustainable Tourism" that is currently assisting the food service sector in transitioning into a low carbon industry. The project is also participating in the crafting of national and local Sustainable Consumption and Production (SCP) policies and raising consumer awareness with regard to SCP by engaging the dining public into discussion fora and platforms and through information, education, and communication campaigns. https://www.oneplanetnetwork.org/sites/default/files/thesustdiner_summit_manual_march2020.pdf
