Program Outline

Why not join the program and collaborate with students from all over the world?

Osaka Metropolitan University (OMU) in Japan is implementing an entirely online-version of the program entitled *Socially Innovative Global Classroom: Online (SIGLOC-online)* in **July 2023**. SIGLOC-online is a **three-week intensive collaborative program** in which students from different countries share their experiences, exchange opinions, and collaborate to create solutions to social issues.

All university students around the world are welcome!

Characteristics of the SIGLOC-Online

- All participants will participate remotely
- Collaborative and active learning
- Interaction with other participants in every session
- Conferral of a Certificate of Completion

18th	June - July, 2024	TBA	TBA

※Please refer to the SIGLOC-online Main Website for the updated schedule.

The Voices of the Participants

"I think SIGLOC is a very meaningful project, it gathers the ideas of young people from all over the world, according to **the community issues** in various countries, to **make suggestions for the sustainable development** of the world."

"The debate was pretty intense for me because I had no experience in the debate whatsoever, but it was interesting to be **able to see a different perspective** from other people."

"My favorite task is doing the picturebook proposals, as I can **convey my ideas on paper** and **test the feasibility of it** from a sustainability perspective."

"Indeed, not only I gained **new insights** about other cultures but I also gained **meaningful memories and friends**."

"I am **beyond happy** for being able to **make new friends** during this SIGLOC and I hope that I'll be able to meet again for the succeeding international exchange student programs."

To Educators and/or Officers of International Students Affair:

If your school is interested in participating in SIGLOC-online as a part of class or special course, please contact us.
